and several sport associations.

Pnei News – bimonthly review – nr 3-4 – year XIII– May - August 2019

PNEI NEWS NR 3-4 – May – August 2019

THE NATIONAL CONFERENCE ON 6TH OCTOBER IN ROME

Page 3. The PNEI paradigm for sport

Sport is a complex phenomenon where the body adapts 360° according to the PNEI network whose knowledge is essential in order to evaluate the health state and performance of the athletes and being able to influence them positively.

Nicola Barsotti, Marco Bruscolotti, Marco Chiera

INTERVIEW

Page 6. Irving Kirsch interviewed by PNEI NEWS

I confirm: antidepressants have a minimal efficacy, clinically undistinguishable from placebo.

Paola Emilia Cicerone

PNEI AND PSYCHIATRY

Page 9. Psychiatric disorders. Interactions between stress and psycho-neuro-endocrine-immune network

Stress and the psyche-brain immune network in psychiatric diseases based on psychoneuroendocrineimmunology: a concise review. *Ann N Y Sci.* 2019 Feb; 1437 (1): 31-42.

Anna Giulia Bottaccioli, Francesco Bottaccioli, Michael di Palma, Andrea Minelli
